WATER FITNESS CLASSES (Schedule Subject to Change)

All classes are designed to promote and enhance physical and mental fitness through exercised in both shallow and deep water. The water’s unique properties allow the pool to provide an environment for people of all ages and abilities. Buoyancy creates a reduced impact exercise alternative that is easy on the joints, while the water’s resistance challenges the muscles. Participants can get high cardio workouts in either the shallow or deep water classes as well as using the water’s resistance for building muscles and aiding bone/joint health.

All Water Fitness Classes run Monday – Friday except for cancellations due to holidays, maintenance, swim meets and other special events. All participants must complete a Risk/Release Form prior to entering the pool. Participants are highly encouraged to seek medical approval from their physician prior to starting an exercise program. The water temperature is maintained between 78-82 degrees, anyone sensitive to this range may not be comfortable in the water. For your satisfaction, we offer one complimentary Water Fitness Class for new participants and guests.
